with **Open-Aire™**
Oxygen Systems

Our mission is to improve the lifestyle of oxygen users. At Open-Aire™ we speak with hundreds of people every day—people just like you, with lifestyle concerns about oxygen limitations. They have questions about travel, safety and support. We understand what is important to you and we are here to help with a portable oxygen solution.

Open-Aire's professional and courteous service is preferred by thousands of oxygen users and physicians nationwide. Open-Aire provides an unprecedented level of customer care.

Safe, Reliable & Convenient

Drive Safely

Everyone knows the potential danger of transporting traditional oxygen tanks in the vehicle. Our portable systems completely eliminate that risk since they do not store oxygen but, instead, make unlimited oxygen as you need it. Simply plug the portable system into your vehicle's DC adapter and drive with peace of mind as far as you would like without the worries of dangerous oxygen tanks.

Fly Safely

Our portable systems are approved for use on aircraft by the Federal Aviation Administration (FAA), so you can book your next flight with ease and confidence. Open-Aire customers board the aircraft like everyone else.

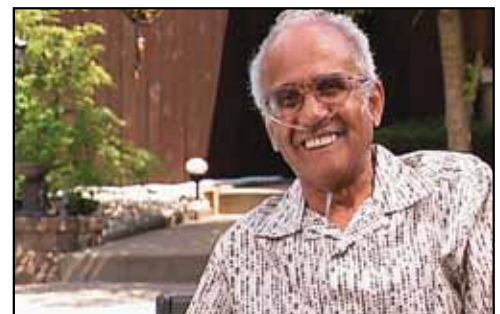

"I am retired from Delta Air Lines and one of the few perks I have left is free travel for the rest of my life. But since I needed oxygen I figured my "wings were clipped," Then someone suggested I contact Open-Aire. I am now going to Dublin."

- Lawrence, Kentucky

Peace of Mind

Easy to Use

Our portable systems are state-of-the-art and designed for ease of use and reliability. Unlike traditional oxygen tanks, they never need filling and provide unlimited oxygen. This innovative technology is simple, reliable and convenient.

Stay Out Longer

Go up to eight hours on a single charge or plug it in for continuous use. You will never have to worry about running out of oxygen again. You're on-the-go with our portable system.

National Support

Open-Aire provides 24/7 technical support to ensure worry-free use whether at home or on the road. Our friendly customer service representatives are always ready to assist you. We are a national ACHC accredited company.

"One of the best experiences we've had...please keep up the exceptional service! You are a rare company, with great customer service!"

- Francis, Miami, FL

Covered by Medicare & Other Major Insurances

Open-Aire™ Systems

Our standard system package includes a portable concentrator for your mobile and travel needs and a stationary concentrator for home use.

Portable Concentrator

It's as small as a camera bag but large on features:
